

## Z-Select 2000D 60 Receipt

# Receipt paper

### Direct thermal

#### Description:

A 60 micron topcoated receipt grade paper

#### **Expected Image Lifespan: up to 12 years**

**Image lifespan:** We expect, but do not warrant image durability on this product of twelve years, when handled before and after printing according to the following conditions:

**Storage and handling conditions:**

The product should be stored at temperatures between 18C° and 24C°, with a relative humidity of 40% to 60%. Longer term storage at temperatures over 40 C° or over 60% relative humidity can lead to a reduction in contrast.

The product should be stored in the dark, avoiding direct sunlight, fluorescent and similar UV light sources. This product should not come into contact with the following products, as they can have a negative effect on the contrast of the printed image:

1. Carbon and carbonless forms;
2. Chart papers or adhesive containing tributyl phosphates, dibutyl phosphates or other organic solvents;
3. Envelopes and folders composed of plastics containing plasticizers, such as those commonly available from office materials suppliers (alternatives are available)
4. Solvents, including alcohol
5. Discolouring materials such as polyvinylchloride films containing plasticizer.

#### **Product Performance and Suitability**

All information on this document is to be used for guidance only and is not to be used for setting specifications. All purchasers of Zebra products shall be responsible for independently determining if the product conforms to all requirements of the application.

Zebra expects but does not warrant, that printed images on those products with a specified archive life can be expected to last as stated, when stored according to specific archive conditions. Zebra's standard Terms and Conditions of Sale apply for all sales of Zebra products.

For testing of this product, please order from the Zipship range or contact your internal sales representative.
